

SNAP-Ed Across Georgia

Improving the likelihood that persons eligible for SNAP will make healthy food choices within a limited budget and choose physically active lifestyles consistent with the current Dietary Guidelines for Americans and the USDA food guidance

Sub-Recipients:

Georgia Department of Public Health (DPH)

- Mission statement is as follows: "To prevent disease, injury and disability; promote health and well-being; and prepare for and respond to disasters."
- Uses SNAP-Ed funds to support health districts to work with employers and communities to build and expand Worksite Wellness programs and develop and sustain Community Gardens.

University of Georgia:

- Offers in-person and online classes, including Food Talk, Food Talk: Better U, Food Talk: Farmers Market, Food eTalk, and Food eTalk: Better U.
- Uses social marketing for FNV and direct to promote education opportunities offered by UGA.
- Focuses on policy, systems, and environmental change interventions through Healthy Child Care Georgia in early childcare settings.

Open Hand Atlanta:

- Offers Cooking Matters, evidence-based nutrition education for adults, kids, teens, and parents.
- Includes Cooking Matters at the Store for Parents and Cooking Matters at the Store for WIC Parents to give hands-on learning experiences on how to get the most nutrition on a tight budget.
- Uses a Health Retail marketing campaign called "Are you Hungry for Healthy?" as well as social marketing to promote MARTA markets.
- Includes FVRx, a fruit and vegetable prescription program partnering with Wholesome Wave Georgia to provide nutrition education to program participants.

HealthMPowers:

- "Empowering Healthy Choices in Schools, Homes, and Communities"
- A three-year school-wide intervention promoting nutrition, education, and physical activity in childcare, elementary schools, and secondary schools.
- Trains school staff and parents on child nutrition and physical education and implements in-school events and assemblies to educate students on nutrition and physical education.
- Reaches communities through the Out-of-School-Time program to provide training to youth development professionals to give 30 minutes of physical activity to every child they serve.
- Using community-based interventions through healthy retail.
